**BLACK CREEK 6 PUMP AND WELL INSPECTION PROJECT  
ADDENDUM #1  
SEPTEMBER 22, 2021**

TO ALL RESPONDENTS:

**This addendum is to amend the Scope of Work and Bid Pricing Sheet.**

**Amendment 1:**

Exhibit 1 Scope of Work, Section 3 Clean and Inspect Well

**Should read:**

Section 3. Inspect Well

Note: There has been a history of alignment issues where the 14" diameter upper casing laps with the 8" diameter lower casing. This has caused difficulties in the past attempts to utilize inspection cameras. The Contractor shall be prepared to furnish the equipment and materials necessary to camera the casing down to a depth of 610'.

- a) Contractor shall sound well to verify depth.
- b) Using video equipment made for this purpose, visually inspect, and record the condition of the well casing and screens after.
- c) Prepare a detailed inspection report to document well conditions and configuration (well diameter, depth of inner/outer casing, screen depth and extent, overall depth, pump installation depth, etc.).
- d) Inspection report shall include recommendations for repair of any deficiencies discovered.
- e) Provide to ONWASA a copy of the video inspection, on suitable storage media (CD or USB flash drive) in a readable format, along with two hard copies of the inspection report.

**Amendment 2:**

Exhibit 2 Bid Pricing Sheet

The amended Bid Pricing Sheet (see next page) must be included in the submitted bid documents for the 2022 Black Creek Well 6 Pump and Well Inspection Project. Failure to use the Amended Bid Pricing Sheet will result in the bid being considered unresponsive and will be rejected.

**Exhibit 2  
2022 Black Creek Well 6 Pump and Well Inspection Project  
Amended Bid Pricing Sheet**

\_\_\_\_\_(Bidder) will evaluate the existing turbine pump, shaft, motor and appurtenances; visually inspect the existing well casing and screens; document well configuration/condition; and provide recommendations for repair of any deficiencies discovered as listed in the Scope of Work (Exhibit 1) including all permits, parts, labor, restoration of area and any other cost below.
